SauceDemo Manual QA Testing

Test Execution Summary

Overall status

PARTIAL - the available record supports nine PASS results and six NOT VERIFIED cases.

Execution counts

15 planned; 9 observed/reported PASS; 6 inferred and not verified; 0 confirmed defects documented.

Observed results

TC-001 through TC-009 are recorded as PASS based on results or screenshots described by the user.

Unverified cases

TC-010 through TC-015 contain likely behavior only. Execute them, replace proposed results with actual observations, attach screenshots and update statuses before presenting the project as fully executed.

Defects

No confirmed defects have been documented. This does not prove the application is defect-free.

Evidence

Copy original screenshots into the relevant folders under 03-Test-Evidence. The workbook notes where evidence is missing.
